MEMORANDUM FOR: Project Comptroller  
Project Personnel Officer  
Project Security Officer

SUBJECT : Income Tax Consultant

25X1A9a

25X1A6b 1. [REDACTED], Office of General Counsel, today advised me that it appears that OGC will send [REDACTED] also from Mr. Houston's office, to Europe shortly after the first of the year on tax problems for [REDACTED] CIA.

25X1A9a

25X1A9a 2. [REDACTED] also mentioned that tax problems in the Far East were scheduled to be handled by [REDACTED]. OGC representative in the office of [REDACTED] suggested then that if we had requirements for tax advice for pilot personnel, we might wish to clear both of the above individuals so that they could handle this requirement.

25X1A9a

25X1A9a 3. Before doing this, however, I would like to have a clear assertion from [REDACTED] that such a move is desirable and necessary. In the light of the entire fragmentary performance in this role turned in by [REDACTED] during his trip to Europe last January, it is my belief that we should avoid this expenditure if at all possible. On the other hand, I do not wish to be accused later of not having provided the means for giving proper income tax advice to pilots or contractor personnel for that matter, although I believe our obligation to the latter group is negligible.

25X1A9a

25X1A9a 4. I am under the impression that [REDACTED] has the pilot tax situation fairly well in hand at this point. As a matter of fact, I much prefer to have [REDACTED] perform this service if at all possible either in Headquarters or on a trip overseas. I would also prefer that we utilize [REDACTED] in this capacity for pilot personnel at Edwards Air Force Base rather than having to clear some one specifically for such a small group of clients.
